

LIAN V. GARCIA

CIVIL ENGINEER

09299575222 | tadliangarcia@gmail.com | Paranaque City, Metro Manila, Philippines | linkedin.com/in/lgarcia06

PROFESSIONAL SUMMARY

Civil Engineer with over two years of combined experience in site and office engineering, specializing in fit-out projects (Architectural, Structural and MEFPs). Proven ability to manage projects with minimal supervision, coordinate multidisciplinary teams, and deliver works on schedule and within quality standards. Strong background in quantity take-off (Division 2-14), BOQ preparation, procurement coordination, QA/QC inspections, and documentation in compliance with drawings, specifications, and safety requirements.

AREAS OF EXPERTISE

Professional Skills: Project Management | Quantity Take-Off & BOQ Preparation | Procurement Support | Project Scheduling | Site Supervision | Quality Control | RFQ's & Vendor Comparison

Technical Skills: Planswift | Bluebeam Revu | Primavera P6 | AutoCad | SketchUp | Microsoft Office | Google Workspace | Procore | Canva

PROFESSIONAL EXPERIENCE

Sunly Properties Inc.

Technical Assistant | April 2024 – Present

- Reviewed and quantified 2–3 fit-out and retail projects simultaneously, ranging from 50–1,500 sq. m., with project values between Php 10 million and Php 30 million.
- Quantified more than 20+ projects annually and contributed to securing over 20 project awards within a two-year period.
- Prepared detailed and comprehensive Bills of Quantities (BOQs) and scopes of work, achieving 80–90% accuracy in quantity take-offs.
- Assisted in cost estimation by thoroughly reviewing quotations and conducting cost analyses to ensure all project scopes were included, resulting in cost estimates with over 90% accuracy.
- Sourced and evaluated 2–3 supplier options for each project to facilitate effective cost comparison and procurement decisions.
- Maintained strong communication with suppliers and fostered long-term client-supplier relationships to support project success and business continuity.

Sunly Properties Inc.

Project-In-Charge | April 2024 – Present

- Managed fit-out projects ranging from 50–200 sq. m., supervising teams of 10–20 workers while ensuring compliance with safety standards, quality requirements, and project schedules.
- Assisted in the execution of fit-out and retail projects valued between Php 10 million and Php 20 million+, ensuring high-quality workmanship and on-time project delivery.
- Experienced in construction methodologies and standard operating procedures (SOPs), with proven ability to assess issues, troubleshoot problems, and provide timely, cost-effective solutions.
- Skilled in material take-offs, ensuring accurate quantity calculations, proper material allocation, and timely procurement and delivery.
- Proficient in reading and interpreting architectural, structural, and MEPFS (Mechanical, Electrical, Plumbing, Fire Protection, and Sanitary) drawings and plans.

Agchem Construction and Development Corporation

QA/QC Plumbing Engineer | July 2023 – March 2024

- Conducted installation inspection and testing of plumbing systems for a 43-storey premium corporate tower.
- Performed daily plumbing testing for 30+ pipes to ensure compliance with standards and specifications.
- Coordinated inspection schedules and final testing with the Head of MCT.
- Accelerated inspection and testing works for 15+ floors within a six-month timeframe.
- Prepared and submitted WAPs, WIRs, and inspection and testing reports.

PROFESSIONAL EDUCATION

University of Norther Philippines

2023

Bachelor of Science in Civil Engineering

Major in Construction Engineering and Management
